

Postsecondary Career School Transfer Opportunities

Below you will find a list of postsecondary career schools in the state that have notified our office of their ability and willingness to assist former Ridley-Lowell students with transfer opportunities. It is important, prior to enrolling, that you be informed of your financial obligation and coursework required to complete as schools may have differing policies regarding the acceptance of prior training. The acceptance of prior training is at the discretion of the receiving institution.

Please be aware that transferring to another institution to complete your training may prohibit you from forgiveness of your Federal student loans. For more information on closed school loan forgiveness please visit the following [site](#).
